Dear Matt;

I have been meaning to touch base with you to let you know how much I appreciate all the support I have received from your technical staff regarding the Kodak Document Archive Writer we purchased from you. It's a great feeling to know that if I need assistance I can count on Greg to help me troubleshoot the problem or refer me to someone that can help. I really do appreciate their willingness to help out.

Also, I want to thank you for your eagerness to create film that meets the guidelines we have requested. The film your company sends us consistently meets these guidelines.

Sincerely,

A handwritten signature in cursive script that reads "Gina Fry".
